

Dear fellow Energy responsible friend,

The ENTROPY project values your trust and appreciates the opportunity to share energy related information with you on a quarterly basis.

On May 25, 2018, the General Data Protection Regulation (GDPR) is set in application by the European Union as means to protect all of our data, something we agree by (and already treat with respect). One key aspect relevant to our quarterly communication is that you have to take one small step and tell us that you still want to hear our awesome energy related news.

To do so you just have to confirm that you would like to receive our news by simply updating your profile preferences following the button bellow.

Yes, I want to receive ENTROPY news

In the case you don't want to hear from us we will have to remove you from our communication lists, starting May 25th. Let's not let that happen.

As always, let us know if you have any questions. We are happy to answer.

With best regards,
The ENTROPY team.
